PROFESSIONAL SUMMARY

I'm a Design Engineer and Product Designer with 3+ years of experience designing and building digital products across fintech, SaaS, AI, creator platforms, and modern web experiences. My expertise spans product design, frontend engineering, product management, AI integration, and conversion-focused user experience.

I work at the intersection of strategy, design, and technology, helping startups and businesses transform complex ideas into intuitive, scalable, and high-performing products. With experience leading product initiatives, designing user-centered systems, building responsive frontend experiences, and integrating AI-powered workflows, I focus on creating solutions that drive engagement, growth, and measurable business impact.

SKILLS & TOOLS

Product Design, Design Engineering, Product Management, Product Strategy, User Research, UX/UI Design, Design Systems, Conversion & Growth Optimization, Interaction Design, Motion Design, Visual Design, Branding, Graphic Design, Frontend Engineering, Next.js, React, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, GSAP, Framer Motion, AI Experience Design, Prompt Engineering, Figma, FigJam, Adobe Photoshop, Jitter, VS Code, GitHub, Vercel, Netlify, Jira, and cross-functional collaboration.

WORK EXPERIENCE

Immigify, USA (Remote).

Jan 2026 - Present

- Leading product design across SaaS platforms and internal business tools.
- Collaborating with cross-functional teams to translate business goals into intuitive user experiences.
- Managing user testing, feedback sessions, and usability improvements to enhance product performance.
- Supporting frontend development using React and JavaScript to bridge design and engineering workflows.
- Designing graphics and brand assets for company subsidiaries while maintaining visual consistency across platforms.
- Creating scalable design systems, dashboards, workflows, and responsive interfaces for internal and customer-facing platforms.

Devaluwatobi Innovations, Nigeria.

Oct 2024 - Dec 2025

- Led end-to-end product design for fintech and SaaS MVPs, driving 25% faster go-to-market for clients.
- Collaborated with developers and stakeholders to align design with business goals, ensuring high retention and adoption.
- Designed responsive, accessible interfaces for web and mobile platforms, contributing to a 40% increase in mobile usage across fintech products.
- Optimized user flows and reduced user drop-off by 18% by refining key features and simplifying navigation for both fintech and SaaS products.

Hiremystudios, Australia (Remote).

May 2024 - July 2024

- Created visually appealing and user friendly designs for multiple digital platforms, ensuring consistency with brand guidelines.
- Conducted comprehensive user research, including interviews, surveys, and usability testing, to gather insights and inform design decisions.
- Developed wireframes, prototypes, and interactive mockups to illustrate design concepts and user flows.
- Implemented user feedback and iterated on designs to enhance usability and user satisfaction.
